March Club House

The Clubhouse is Coming to Life! 🍷🥂

As we shake off the final chill of winter and watch the greens start to glow, the action is moving off the course and right into the heart of the clubhouse. March is all about that "spring-forward" energy—longer evenings, brighter days, and a social calendar that's finally heating up.

We've spent the winter months planning a season full of reasons to gather, toast, and celebrate. Whether you're here for the post-round banter or just looking for a great night out with friends, the clubhouse is the place to be this month.

Flip through to see what's on deck for our social scene:

- Trivia Night: Sharpen your wits and grab a drink for a battle of the brains. No handicap needed for this kind of "course" knowledge!
- Bunco Bash: Roll the dice and enjoy some fast-paced fun. It's the perfect way to catch up with friends and meet new members in a high-energy setting.
- Murder Mystery Dinner Club: Put on your detective hat for a night of suspense, secrets, and a fantastic three-course meal. Can you solve the crime before dessert?

The fires are winding down, the patio is calling, and we can't wait to see the clubhouse full of familiar faces again. Let's make this season one to remember!

DRILL & Fill Green Aeration

Keeping Our Greens Great: Drill & Fill Aeration 🚩

If you've noticed some extra activity on the course this week, it's for a very good reason. We are currently performing Drill & Fill aeration, a critical "spa day" for our greens that ensures they stay firm, fast, and healthy all season long.

While we know nobody loves seeing tiny holes on their line, this process is a game-changer for our turf. Unlike standard aeration, the Drill & Fill method goes deeper, bypassing the thatch layer to get sand and nutrients directly into the root zone. This improves drainage, helps the grass breathe, and prevents that "spongy" feel during the wetter spring months.

Why we do it:

- **Superior Drainage:** Keeps the greens playable even after heavy March showers.
- **Root Health:** Encourages deep root growth for heat resistance this summer.
- **Smoother Surfaces:** Once the sand settles, it creates a much more consistent putting surface.
-

We appreciate your patience while the maintenance crew works their magic. The short-term disruption is a small price to pay for the championship-level conditions we'll enjoy for the rest of the year!
