July Update: The Heat is On at Twin Hills

As we head into the peak of summer, the greens crew is shifting into overdrive to keep our championship course in pristine condition despite the rising temperatures. With high traffic and summer heat both in full effect, our primary focus is maintaining optimal turf health while delivering tournament-ready speeds and consistency for our premier July events.

July Maintenance & Groundskeeping Projects

- Championship Level Prep: In preparation for the 4th of July Tournament and the highly anticipated Invitational (July 24th–26th), we are implementing an aggressive mowing and rolling rotation. This schedule keeps the greens firm, fast, and true for peak competitive play.
- Invitational Course Prep: Please note that you will see more maintenance on the course, so be patient while our team details bunkers, crisps up the fringes, and ensures the entire property is flawless for our biggest showcase of the month.
- Summer Hydration & Watering: To combat the intense July heat without over-saturating the playing surfaces, our crew will be out daily performing targeted watering ("syringing") on the greens. This localized approach keeps the roots healthy without slowing down the turf.
- Debris & Fan Management: We are actively monitoring air circulation on our more shaded greens and keeping tree lines manicured to maximize airflow and prevent summer turf stress.

Member Reminders for July

- Hydration Stations: For your safety, water stations around the course are being checked and refilled multiple times a day. Please stay hydrated out there!
- Fix Your Ball Marks: Hot summer turf takes twice as long to recover from damage. Repairing your ball marks and replacing your divots is absolutely essential to keeping Twin Hills at a championship level this month.

We look forward to seeing you out on the course for an incredible summer of golf!
